<b>TOTAL REVENUES</b>	<b>\$ 2,357,009</b>	<b>\$ 2,938,649</b>	<b>\$ 2,475,637</b>	<b>\$ 2,681,016</b>	<b>\$ 2,872,379</b>	<b>\$ 3,487,096</b>	<b>\$ 3,262,740</b>	<b>\$ 3,518,956</b>

## Take Aways and Notes:

- Village revenues have diversified over the years with less reliance on property tax and through growth in hold harmless GRT revenue
- Construction GRT's accounted for 54% of total GRT revenues in FY24, has averaged 58% of total fiscal year GRT revenue since 2017
- **FY24 Property tax revenues of \$539k provided 17% of total revenues, and 17% on average over the past 7 years**
  - Property tax revenues average growth rate since 2017 is 2.2% per year
  - FY22 and FY23 had large swings in property valuation, first falling 17.9% then growing 21.4% in the following year
- **GRT revenues of \$1.88M were the primary source of income for the Village in FY24 at 58% of total revenues**
  - **Construction = 54% of total GRT revenues in FY24, and has averaged 58% of total fiscal year GRT revenue since 2017**
  - GRT revenues grew substantially over the past decade partly because of large TSVI construction projects (a non-recurring source of income in the future)
  - In FY24, a \$400,000 portion of GRT revenue was accounted for in the joint utility fund. A practice that is not planned to continue.
- **HHGRT revenue collections began in 2018 and have averaged \$283k per year, growing to \$463k in FY2024**
  - The HHGRT revenues are pledged to repayment of the USDA WWTP Loan and are transferred to the Joint Utility Fund
  - The HHGRT revenues are also used to fund a USDA required Repair and Replacement Reserve Fund
- **Interest Income has benefitted in recent years due to an increase in current interest rates. Returns are anticipated to continue, however at a more modest level than in FY2024**

## Take Aways and Notes:

FY 2025 Budgeted – Items included from Village Budget:

- General Gov't includes Salaries, Health Insurance, FICA, PERA, Legal Services, Auditor, and Utilities
- Public Safety includes Law Enforcement
- Capital Outlay includes one-time improvements and repairs
- Debt Service attributable to the General Fund includes two loans

**General Govt** expenditures remained consistent from FY2018-2023 with a 36% increase in FY24

- General Govt expenditures have been budgeted in FY2025 to decrease 36% from FY24 audited financial statements

**Capital Outlay** is significantly higher than prior years

**Public Safety** expenditures averaged \$390K over the last 3 fiscal years

- Public Safety expenditures are budgeted to increase by 73% in FY2025, to \$620k

**General Fund - Excess Revenue is an important metric demonstrating operating performance prior to any transfers in or out**

# General Fund - Historical and Budgeted Non Operational Expenditures

## Take Aways and Notes:

- **General Fund Transfers Out** increased significantly starting in FY2018 and have averaged \$1.2M over the past 5 years, compared to an average of \$331k the prior 4 years
  - Transfers Out are **budgeted at \$2.1M for FY2025**
  - Transfers Out have been primarily used to subsidize the Join Utility Fund operations and for capital expenditures
- **Fund Balance** includes the Village's General Fund, General Reserve, General KCEC, and Law Enforcement.
  - FY2025 Budget Unassigned Fund Balance is a projected estimate until audited financial statements are available
  - FY2025 projected year ending fund balance is lower due to conservative budgeting for expenditures which are likely higher than will be realized
- **Unassigned General Fund Balance is the heaviest weighed financial metric** evaluated by creditors, rating agencies and lenders. It denotes funds that have not been encumbered or restricted by the Village & how much funds the Village has available in stressful times.
  - **Portions of the current unassigned balanced are Village Restricted**
  - Recommend targeting a 100% Unassigned GF Balance in stabilized operating times and a minimum 50% General Fund Balance
  - These levels are recommended due to limited recurring revenue for financing payments and large capital improvement needs

# General Fund – Historical and Budgeted Financial Ratios and Metrics

## Take Aways and Notes:

- Financial Ratios and Metrics are tested against annual operational cash flow
- General Fund revenues and expenditures show improved financial situation and some capacity for financing projects, but this assumes that a large portion of Transfers Out are removed.
  - Revenues available for debt service include all revenues, net operating expenditures and recurring transfers out
- Annual Debt Service Coverage should be equal to 1.2x for GRT financings due to debt service coverage requirements, figures below 1.0x represent insufficient operating dollars to pay debt service
- The Village currently has a strong Fund Balance and Days Cash on Hand metric

# General Fund – Projected Revenues

		Projected <sup>2</sup>									
Growth		FY2026	FY2027	FY2028	FY2029	FY2030	FY2031	FY2032	FY2033	FY2034	FY2035

## Take Aways and Notes:

The Projected budget analysis considers historical trends and future revenues that are “recurring” with a discount to GRT’s collected from construction activity

- **Historical property tax** revenue has **averaged 2.5% growth** over the past 7 years and the analysis assumes the same growth rate
  - Developer estimates a one time, 20% increase in property tax rates from reassessment in 2026 (not reflected)
- **GRT Revenue Projections** assume the following:
  - Current local GRT tax rate is maintained at a total of 3.6625%
  - Increased development and construction that began in 2016 begins to slow in 2028 through 2035
  - Projected construction GRT Receipts in 2025 are roughly equivalent to 2021-2024 average receipts for construction
  - Baseline GRT receipts and activity other than construction use an 8-year average and grow at an 5% annual rate through 2032
  - *Developer estimates an additional \$25M annually in non-construction GRT activity, equivalent to \$300k in additional revenue to Village*
- **HHGRT** is calculated based off the same gross receipts figures and assumptions for GRT revenues above
- Interest income projection is based on the average interest income received FY2019 to FY2023

# General Fund – Projected Operational Expenditures and Operational Surplus/ Deficiencies

### Take Aways and Notes:

Growth rates determined with Village staff based on past year trends and expectations given various factors such as insurance premium increases and inflation.

- General Government includes wages, insurance and total benefits
- Public Safety growth rate includes wages, insurance and total benefits
- Debt Service figures are actual
- Based on GRT figures with reduced construction activity, the General Fund projects to run an operational deficit in the future based on the analysis assumptions
  - Expenditure growth outpaces Revenue growth or reductions

# General Fund – Projected Non Operational Expenditures

## Take Aways and Notes:

Transfers Out are required for HHGRT as the security pledge for the USDA WWTP debt service and reserve requirements. Transfers Out will continue to be a necessary requirement for Streets/Roads maintenance.

- **Approximately \$900k of Annual Transfers are Projected, whereas historical and budgeted transfers averaged \$1.2M annually from FY2020 to FY2024**
- Annual Net Change in Fund Balance is anticipated to be negative every year based on analysis assumptions
  - **General Fund Balance and Unassigned Fund Balance are projected to turn negative by 2030**
- ***Projected growth in Expenditures outpace projected growth in Revenues leading to the deficiencies and shortfall***

## Take Aways and Notes:

- Projected Revenues available for additional debt service result in \$0 available over the next 10 years for additional projects and financing
- Fund Balance is projected to turn negative by FY2030 at current spending rates

The 2025 budget numbers in this report included modifications from the FY2025 budget adopted by the Village Council

## **Historical Financial Performance and Observations:**

### **Revenues**

- Primary revenue sources are from GRT (55%) and Property Tax (15%)
- GRT Revenues averaged \$1.12M in 2014 and 2015; and increase from 2016 to 2024 to an average of \$1.6M

### **Expenditures**

- General Government has been the highest expense on an annual basis averaging \$1.1M over the past 7 years, averaging 55% of the budget in 2017-2020, and 52% of the budget in 2021-2024
- Transfers Out to Streets, EMS, Fire and others average \$1.2M over the past 5 years

### **Fund Balance**

- Strong historical metric for the Village with excess revenues compared to expenditures averaging 950k a year over a 7-year period
- Unassigned fund balance as a percentage of revenue has remained strong and averaged \$3M over the past 7-year period

## **Projected Financial Performance and Observations:**

### **Revenues**

- Total GRT revenues projected to average \$1.55M through 2032 (including HH collection)
- Assumes recent construction activity begins to decline in 2026, and even more so in 2028 through 2032
  - Non-recurring revenues from increased construction should be considered for one-time expenditures (i.e. capital maintenance and improvements), and not for ongoing items like wages and salaries

### **Expenditures**

- General Fund expenditures are projected grow at approximately 5% per year and outpace revenue growth resulting in a net deficit in 2025 through 2035.
- *Historical and budgeted transfers out have averaged \$1.2M annually from FY2020 to FY2024, Projections assume only HHGRT and Streets are transferred out averaging \$900k/annually*

### **Fund Balance**

- *The GF and Unassigned Fund Balance projects to turn negative in 2030*

## **Capital Expenditure and Project Financing Capacity:**

- *No additional revenues for debt service projected to be available over the next 10 years to provide for additional project financing*

SECTION II.

## Take Aways and Notes:

- 2025 Revenues are budgeted to remain flat compared to FY2024 while total operating expenditures have been budgeted to increase nearly \$700k (~45% increase in expenses)
- To meet Debt Service Coverage requirements - FY2024 needed an additional \$116k in revenue, and Budget FY2025 needs approximately \$1.06M.
- Total Operating Costs have averaged \$1.15M over the past 5 years

## Take Aways and Notes:

- Debt Service Coverage requirement from Net System Revenues has not been met in past two years
  - HHGRT portion of the USDA loans is removed from the calculation
  - **Approximately \$116k of additional revenue was needed in FY24 to meet debt covenant**
- The Village has a strong Unrestricted Net Position and Liquidity metric (Days Cash on Hand)
  - Recommend maintaining balance equal to 100% of operating expenditures due to large system and lack of revenues available for financing
  - Excess balances can be used for capital expenditures in lieu of, or in conjunction with, financing

## Take Aways and Notes:

- A one-time revenue increase of \$285k was used to balance the projected operating budget in FY2026.
- A 5% annual revenue growth rate is needed for the JUF to break even each year.
- Operating expenditure growth factors have been determined in consultation with Village staff based on prior year trends and expected future increases.
- Annual operating expenditures include debt service.

## Take Aways and Notes:

- HHGRT is transferred in from the GF and is pledged to repayment of a WWTP loan from USDA
- Additional ongoing transfers from the GF have not been included. However historical average for transfers in equates to \$675k from the general fund
- Audited Unrestricted Net Position may include Village restricted dollars for Debt Service and O&M reserve

## Take Aways and Notes:

- Annual debt service coverage ratios are met each year with these budget projections and assumptions
- Based on projected Utility revenues and debt service amortization, the JUF could potentially finance projects in FY2028
- With an increase in operating revenue, the JUF can become self sustaining and provide additional funds for capital projects

## **Historical Financial Performance and Observations:**

### **Operational Revenues, Expenditures and Net Operating Surplus**

- 2025 Budgeted Revenues are flat compared to FY2024, which was up 34% compared to FY2023
- Total Operating Costs averaged \$1.1M over the past 7 years; this year's FY2025 budgeted costs is \$2.2M
- Budgeted FY25, Net Operating Surplus should total \$0 in order to meet Debt Service Coverage Ratio of 1 times
- Debt Service has increased by approximately \$400k in recent years with the WWTP coming online
- Operating expenditures have exceeded revenues in 5 of the last 8 years resulting in operational budget deficiencies

### **Fund Balance**

- Auditor includes some Village restricted funds in Unrestricted line item and plans to modify that practice next Audit.
- Expected expenses for WWTP project were not included at the end of fiscal year, according to staff

## **Projected Financial Performance and Observations:**

### **Revenues, Expenditures and Net Operating Surplus**

- Projected Charges for Services are assumed to grow at 5% over the next 10 years
  - *Need to evaluate annually and balance with rate increases to provide necessary enterprise revenues*
- Personnel Services is assumed to grow at 6% capturing wage increases and insurance costs and benefits (averaged 9%)
- Revenue increase are needed to avoid a Net Operating Deficit based on the analysis

### **Non-Operating Revenues**

- The JUF fund has received an average of \$700k in transfers in from the GF over the past 6 years
  - *A smaller amount of \$375k is projected to be received for HHGRT moving forward*

## **Capital Expenditure and Project Financing Capacity:**

With annual setting of utility rates that provide a balanced operating budget, and the amortization of existing debt obligations, the Village could explore financing of projects in 2027

SECTION III.

## Take Aways and Notes:

- *State Operating Grant revenues are restricted funds and can only be used for specific expenditures*
- *Fire Department wages are paid by the General Fund*
- *State Fire Marshall's Office limits annual debt service to 2.0x DSCR calculated off of State Fire Grant Baseline (as of 05/04/2021 the baseline grant amount totals \$145,946).*
- *\*Report includes fire protection funds: 209, 210, 516*

Stifel, Nicolaus & Company, Incorporated (“Stifel”) is providing the information for discussion purposes and is declaring that it has done so within the regulatory framework of MSRB Rule G-23 as a financial advisor, as defined therein, and not an underwriter to the issuer for this proposed issuance of municipal securities. A “financial advisory relationship” shall be deemed to exist when a firm enters into an agreement to render financial advisory or consultant services to or on behalf of an issuer with respect to the issuance of municipal securities, including advice with respect to the structure, timing, terms and other similar matters. Accordingly, any services provided by Stifel as they relate to our role as financial advisor should not be construed as those of an underwriter or placement agent.

These materials have been prepared by Stifel for the client or potential client to whom such materials are directly addressed and delivered for discussion purposes only. All terms and conditions are subject to further discussion and negotiation. Stifel does not express any view as to whether financing options presented in these materials are achievable or will be available at the time of any contemplated transaction. These materials do not constitute an offer or solicitation to sell or purchase any securities and are not a commitment by Stifel to provide or arrange any financing for any transaction or to purchase any security in connection therewith and may not be relied upon as an indication that such an offer will be provided in the future. Where indicated, this presentation may contain information derived from sources other than Stifel. While we believe such information to be accurate and complete, Stifel does not guarantee the accuracy of this information. This material is based on information currently available to Stifel or its sources and are subject to change without notice. Stifel does not provide accounting, tax or legal advice; however, you should be aware that any proposed indicative transaction could have accounting, tax, legal or other implications that should be discussed with your advisors and /or counsel as you deem appropriate.
